

FUERTEVENTURA
7 – 8 NOVEMBER 2013

INTRODUCTION

AFRICAGUA is a renowned international forum covering the water and renewable energy sector in Africa. AFRICAGUA next takes place November 7-8, 2013, at the Fuerteventura, Canary Islands, Spain.

AFRICAGUA explores opportunities for water and renewable energy projects on the African continent, while putting potential partners of different origins in direct contact with one another. Spain, with its many companies and entities experienced in this type of endeavor, provides an exemplary meeting place for the forum.

AFRICAGUA features a full roster of workshops, round-tables, and presentations providing a thorough grounding in the fundamentals of the topic, as well as fleshed-out, real-world case studies and examples of best practices, in order to fully prepare participants to be successful.

Continuing to grow its reputation as the premier educational event on the subject of water and renewable energy in Africa, AFRICAGUA brings together International, national, regional and local authorities, as well as representatives of private sector entities from Africa and around the world, including European Commission bureaus, the World Bank, the African Development Bank, the United Nations and more. In just two days, you will meet the world's foremost experts and participants involved in water and alternative energy programs and projects in Africa. If you need to know who is active and innovating in this field and how to join them, join us at AFRICAGUA.

The event provides simultaneous translation in the following languages: SP / EN / FR
